Re: Freedom of Information Act Request Number 10 RIN-99-91

Dear Mr. Miller:

This is an interim response to your Freedom of Information Act (FOIA) letter received by the Environmental Protection Agency (EPA) on January 17, 1991, regarding the Chempro Processor, Incorporated-Pier 91 facility located in Seattle Washington.

Pursuant to 40 CFR 2.112(e)(2), an extension is needed to search for collect, copy, and appropriately examine a voluminous amount of separate and distinct records involved in your request.

This concludes the EPA Region 10 interim response to FOIA request number 10-RIN-99-1991.

Sincerely,

Michael F. Gearheard, Chief
Waste Management Branch

USEPA RCRA
